ARRMESTS' MOVEMENTS SYNCHRONIZED WITH THE BACKREST.

## Benefits

- Anti-tilt frame, it prevents any tilt in every operative conditions.
- Electric low voltage motors.
- The chair is expressely designed to help the patient to easily seat on the chair. Thanks to the option to place the legrest at 90° the access will be easy also for patient with reduced mobility.
- The chair can be equipped with a wide range of accessories.
- The upholstery can be completely sanitized, in order to prevent cross infections, with most common detergents.
- Lying surface in seamless soft foam cushions. The cushions are designed to prevent decubitus wounds.
- Upholstery's features: antibacterial, flame retardant class 1IM, antimycotic, ecologic, latex free, phtalate free and resistant.
- Directional braking system ensures high stability to the device.
- Max load capacity 200 kg.

## Standard features

● ● ● ● ●

- Painted steel frame in thermosetting and antibacterial powders. Wide range of colours .
- Lying surface divided in 4 sections: headrest, backrest, seat and leg.
- Motorized Trendelenburg position from 0° to 15° - Equipment code AC35/1.
- Height adjustment.
- Two motors allow to move the back section and the leg section independently and simultaneously - Equipment code AC12.
